## GORGE BROKE

### And Damaged All Floating Craft in the Harbor Except Tacoma

The ice moved here at 7:45 this morning. The sight was grand and awe-inspiring.

The Big Kanawha, moored immediately behind the ice pier, was the first to feel the force of its mighty force.

The big lines were snapped like thread and the boat was pushed down against the wharf and Laurance.

The Tacoma was sheltered behind the wharf and so far has escaped serious damage.

The wharfboat being hard aground was the only thing that saved the three boats from passing as down with the ice. The Big Kanawha and Laurance are seriously damaged.

#### THE MISSOURI GIRL.

A plain story of plain people is the real heart of literature and a play founded upon such a subject must of necessity contain the heart interest that is the desideratum of the playwright. Mr. Fred Raymond has embodied in "The Missouri Girl" that essential element, and an evening spent at the theater witnessing this play is as beneficial as it is entertaining. A true story of the simple people who inhabit the region of Missouri, where the Ozark Mountains rear their wooded heads is most naturally told and each act of the play is generously equipped with all scenery that can be utilized. This play will be seen at the Opera-house Monday night. Tickets now on sale at Ray's.

MAYSVILLE is right lucky after all. Up to date no one has charged the old town with being the birthplace of either Cassie Chadwick or Johann Hoch.

THERE are thirteen men under death sentence for murder in five Kentucky counties; and there are probably thirteen times that number in the remaining one hundred and fourteen counties who ought to be.

THE promoters of the Barley Tobacco Growers' Association are now charging their failure up to John D. Rockefeller and the Standard Oil Company. Wonder how they overlooked the Protective Tariff?

PRESIDENT ROOSEVELT says he will pay \$100,000 a year to the right man to build the Panama Canal. He might take a look over the Frankfort gang which has spent nearly thirty days and \$30,000 without finding a ten-acre lot on which to build the Capitol.

THREE Negroes have just been sentenced to hang at Lexington for the killing of one white man; and it has been suggested that Fayette county's Republican vote will thus be reduced. Very likely; but if a like deserved fate should overtake the ex-County Judge, the Sheriff and the ex-Senator in Breathitt county, it would not only reduce the Democratic majority in that county, but would necessitate a reorganization of the present Democratic State Central Committee.

WONDER if the Weather Man is one of these new-fangled Civil Service employees?

Of course, from the Socialistic viewpoint, every Editor who doesn't "froth at the mouth" in denouncing Trusts is the friend and advocate of Trusts; while every paper and every party that denounces Trusts is the friend of "the great common people."

Recently the Supreme Court of the United States declared the Beef Trust an illegal combination; and yet tough steaks are high-priced as ever and likely to remain so. There are some things that even Courts cannot do; and that they cannot always enforce their decrees is quite apparent from the several cases cited by HENRY WOLLMAN of New York, acknowledged to be an authority on litigation directed toward the curbing of Trusts and corporations, who takes a most pessimistic view of the possible effects of the recent decision of the Supreme Court against the Beef Trust.

Attorney WOLLMAN says—

"The tangible results of the decision will be nothing. The so-called Beef Trust will continue to buy cattle at its own prices and sell beef at its own prices. The best way to judge of the future is from the experiences of the past. The Ohio Courts decided that the Standard Oil Company was a Trust, but the Standard Oil Company has never stopped growing, and is today hundreds of times stronger than it was at the time of the Ohio decision. What benefits will result to anyone from the decision in favor of the United States in the Northern Securities Company case? The men who conceived the Northern Securities Company will bring about in another form all that they intended to accomplish with the discredited corporation. The Standard Oil Company was practically driven out of Texas; that is, there was a decree of Court entered to that effect, but since the new Texas oil fields have come in there is no part of the United States in which the Standard Oil Company is more powerful than in Texas. The first really great anti-Trust case in this country was directed against the Sugar Trust in this state. Seemingly a great victory was won by the people, but the Sugar Trust today is a giant compared with the baby it was in those days. The Attorney General of Missouri conceived the idea of blotting out the so-called Beef Trust. The Supreme Court of that state in 1893 rendered a decision finding the Trust to be unlawful, and fined the corporation \$5,000, which was equivalent to fining an ordinary man a cancelled postage stamp. Under that decision the Beef Trust is illegal in Missouri, but it is doing business there just the same as before, except that it is doing more of it."

## Do You Smoke Meat?

If you do, do you use the most effective methods?

### CHENOWETH'S LIQUID SMOKER

Is a modern, scientific preparation and takes but a few minutes to apply. It is economical, clearly affords full protection against germs and insects and does away with the expense and bother of smokehouses. Liquid meat smoke is the result of a demand for better methods of preserving meat on a large scale. Chenoweth's Liquid Meat Smoker is this method in its perfection. Save time, money and labor by using this preparation this year.

The skin of the men and women of some nations is much thicker than that of others, particularly in hot countries. The Central African negro has a skin about half as thick again as that of a European. That of a negro is thickest over the head and back, evidently to form a protection from the sun.

The latest candidate for the honor of being the "biggest tree in the world" has been discovered in California. It stands on Government reservation ground and is therefore protected from the attacks of lumbermen. It has a circumference of 154 feet 8 inches and is 51 feet in diameter. Probably it is a specimen of the sequoia, or Wellingtonia gigantea, the "big tree" of California, which forms the famous grove in the Yosemite valley. The sequoia is of the pine tribe and grows freely in temperate climes, but it is only in California that it has attained such colossal dimensions.

### BANKERS MORE CAREFUL

Than the Courts When It Comes to One's Identification

Pittsburgh Index.

A stranger went into an Augusta Bank the other day and presented a check for which he wanted the equivalent in cash.

"Have to be identified," said the clerk.

The stranger took a bunch of letters from his pocket all addressed to the same name as that on the check.

The clerk shook his head.

The man thought a minute and pulled out his watch, which bore the name on its inside cover.

The clerk hardly glanced at it.

The man dug into his pockets and found one of those "If-I-should-die-tomorrow-please-notify-my-wife" cards, and called the clerk's attention to the description, which fitted to a T.

But the clerk was still obdurate.

"Those things don't prove anything," he said. "We've got to have the word of a man that we know."

"But, man, I've given you an identification that would convict me of murder in any Court in the land."

"That's probably very true," responded the clerk, patiently, "but in matters connected with the bank we have to be more careful."

## SORE LUNGS

When your lungs are sore and inflamed from coughing, is the time when the germs of PNEUMONIA, PLEURISY and CONSUMPTION find lodgment and multiply.

## FOLEY'S HONEY AND TAR

stops the cough, heals and strengthens the lungs. It contains no harsh expectorants that strain and irritate the lungs, or opiates that cause constipation, a condition that retards recovery from a cold. FOLEY'S HONEY AND TAR is a safe and never failing remedy for all throat and lung troubles.

The Doctors Said He Had Consumption—A Marvelous Cure. L. M. Ruggles, Reasener, Iowa, writes: "The doctors said I had consumption and I got no better until I used FOLEY'S HONEY AND TAR. It helped me right from the start and stopped the spitting of blood and the pain in my lungs and today I am sound and well."

The Chicago Interior has the following account of Dr. Ely's recent visit to Chicago: "Twenty Ministers of different denominations responded to an invitation from the Moody Bible Institute to take lunch together at the Grand Pacific on Monday, January 30th. The Dean of the Institute, Rev. James M. Gray, presided at the table. The object of the gathering was to meet Rev. James E. Ely, D. D., of Philadelphia, and to hear from him an account of the summer tent evangelization campaign conducted so successfully in that city during recent years. Dr. Ely will return in April as the guest of the Institute, and will then be available for addresses more fully explanatory of the work, using the stereopticon for illustrations, with the view of enlisting the Churches here in such a campaign."

TOBACCO DEAL OFF

Members of Growers' Association Admit Failure of Project

The collapse of the \$10,000,000 loan with which the Barley Tobacco Growers' Association expected to corner the barley tobacco crop was admitted in tobacco circles Thursday night in the statement that things looked very blue and that the only hope now held out to the farmers lay in the arrival of Eastern representatives in Cincinnati with a new proposition. This committee was to have arrived early in the week, but from day to day new stories have been handed out that one cause or another had delayed its departure from the East.

It is asserted that Mr. Archibald Stuart, the Association's representative in the East, is dying hard in Gotham, and that his protracted absence is because of his tenacity of purpose in endeavoring to raise the remainder of the money required in the face of the unrecurrent being brought to bear against this by the Tobacco Trust.

His associates in the venture have left Cincinnati and some days ago admitted to friends that the deal had failed because the Eastern men were induced to break their promises.

The collapse of the scheme to handle the barley crop comes as a blow to the tobacco growers of Ohio and Kentucky. Sentiment has become so strong against the trust that growers were willing to go to almost any extent to take control of the market out of their hands.

The belief that the future looked gloomy is manifested in the large sales which have been made on the Cincinnati breaks the past two days. Growers were holding off their wheat, believing that if the deal went through in favor of the independent tobacco prices would be higher.

Now that the end is in sight, they are letting go, and the Growers' Association has lost much of the tobacco which was originally required in the first contract with the Eastern capitalists.

River News

The Ohio is rising.

The upper Mississippi is rising and backing up the Ohio as far up as Paducah.

The price of Pittsburgh coal has been raised at Pittsburgh from 5 to 7 cents a bushel.

It is the general opinion of rivermen that the worst is over and that navigation will resume shortly.

A sudden rise in the Kentucky river caused a loss to mill men estimated at hundreds of thousands of dollars by rafts of logs being swept away.

An early break up in the condition of the river is now looked for. Swollen streams have poured a flood over the frozen Ohio and the moderating weather has caused a thaw in the tributaries.

Judgment of the Bracken Circuit Court was reversed in the Court of Appeals Thursday in a case of the Commonwealth against Joseph Beckett. The charge was obtaining money and property by false pretenses, and the Appellate Court holds the indictment returned in the Court below to be sufficient.

A. G. Ernschwiler, Prosecuting Attorney of Hartford City, Ind., has written Caleb Powers denying a story published by Democratic newspapers that he refused to have anything to do with Powers, although they had been school-mates, because he believed him guilty. Ernschwiler denounces the story as a fabrication in every particular.

**"There Isn't One Really Good Printer in Five Hundred."**

Printers' Ink—the leading journal on the subject of all kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. In fact, the average printer is willing to pay for good printing, no matter where it comes from."

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed, and to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We keep ahead of the times. We know what good printing is and produce it. We are pretty careful not to let a lump job get into our process. No press in the country can better our printing and we want you to know it.

**FOREST AVENUE FIRE**  
**Stable of Mr. Henry Poth Burned Yesterday Morning**  
About 10 o'clock yesterday morning the stable in the rear of Mr. Henry Poth's property in Forest avenue was discovered in a blaze, the origin of the flames being unknown.  
When first seen the fire had gained rapid headway, and quickly spread to the meat and coalhouses adjoining.  
The buildings had a considerable amount of hay, millet, corn and meat stored in them, all of which were consumed.  
The Sixth Ward Fire boys made a splendid effort to save the property, and their work is much appreciated by Mr. Poth.  
The loss is about \$350, with \$200 insurance.

**Chamberlain's Cough Remedy the Mother's Favorite.**  
The soothing and healing properties of this remedy its pleasant taste and prompt and permanent cures have made it a favorite with people everywhere. A Sheffield firm has placed a new coal-cutting machine on the market that is creating much interest among miners in that part of England. It weighs only 150 pounds, is worked by compressed air and it is said to be wonderfully successful in lightening the labor of the coal hewer and in making his work safer.

**Trials of Motherhood**  
505 Broad Street, PHILADELPHIA, PA., June 13, 1905.  
I suffered for nine years with ovarian troubles making life a burden to myself as well as to my family. During that time I had two miscarriages and although we longed for a child to bless our home this seemed impossible. I had constant racking bearing-down pains in the pelvic organs and a pulling through my limbs with frequent headaches. I felt sick at my stomach and vomited frequently and no medicine helped me until I tried Wine of Cardui.  
Then my general health improved, the pains gradually lessened and after 15 weeks I was well. I am now the happy mother of a boy eighteen months old and my husband joins me in sending heartfelt thanks to you for your splendid medicine. Without, I would have been a childless, instead of a happy mother and well mother.

**WINE OF CARDUI**  
Wine of Cardui is the most successful menstrual regulator. By regulating menstruation, Wine of Cardui banishes inflammation from the entire female organism and the strengthened ligaments bring the organs back to their proper place. This is what Wine of Cardui did for Mrs. Nirdlinger. It banished the racking pains and burning inflammation and brought her relief. She was restored to health and strength and gives Wine of Cardui the credit of making her able to become a happy mother. This medicine equips a woman for every duty of wifehood and motherhood. There are many suffering women who think that health can never be theirs because they cannot secure the services of a great specialist, but we want to say right here that while Mrs. Nirdlinger lives in Philadelphia, a great medical center, she depended on Wine of Cardui for a cure and she was cured. This same medicine is within your reach. Will you take it?  
All druggists sell \$1.00 bottles Wine of Cardui.
